CALIFY / COOL ACADEMIC

BRAND IDENTITY / CONCEPT PREVIEW

Concept art only. UI screens and brand marks require refinement before production use.

Visual Identity Specification

Calm, structured and trustworthy academic technology.

COLOR SYSTEM

Midnight Navy	Teal	Cyan	Soft White	Slate
#0B1F3B	#14B8A6	#38BDF8	#F8FAFC	#64748B

TYPOGRAPHY

Aa Calify

Suggested display typeface: Plus Jakarta Sans

Keep labels readable, predictable and consistently spaced.

Suggested body typeface: Inter

DESIGN TOKENS

- 8px spacing scale for layout rhythm
- 16-20px body text for mobile reading
- 12-20px corner radius for cards
- Primary actions: clearly labeled, not color-only
- Synthetic scores and names in all samples
- Verify contrast, keyboard and touch targets

Usage priorities

App icon at small sizes, README banner readability, and coherent light/dark variants.

Typeface names are proposals only; no font files are distributed.

Detailed Mobile Wireframes

Proposed V2 interaction surfaces - concept screens, not functional Calify V1 UI.

CALIFY / UI EXPLORATION

Cool Academic | Four detailed low-fidelity screen specifications

Mockups only. These are proposed V2 mobile screens, not screenshots of the existing iOS Shortcut.

Design Review & Handoff

Track · Understand · Achieve

IDENTITY

- A calm design system built around progress, trust and academic clarity.
- Primary: #0B1F3B | Accent: #14B8A6 | Surface: #F8FAFC

HCI / UX CHECKS

- Clear hierarchy: identity, status, course, assessment, score, confirmation.
- Readable numeric scales; pending is never represented as scored zero.
- Consistent layout, feedback, error prevention and recovery.
- Mobile wireframes are exploratory and use artificial example grades.

NEXT ITERATION

- Select one visual identity direction and refine its mark/wordmark.
- Specify source-vector assets (SVG), contrast variants and icon safe area.
- Validate color contrast, reduced motion, touch targets and screen sizes.
- Apply chosen branding to README after approval, not before.

Concept deliverables: original branding board, illustrative app icon, README banner, detailed wireframes.

This is an options package for review. No brand has been approved or published to the public repository.
